COUNTY OF JACKSON, TEXAS
BID SPECIFICATIONS FOR ROAD MATERIALS

The quantities listed are merely estimates of annual usage-not actual order amounts. During the period of the purchase contract, the County will buy only the actual quantity required, and it will neither be obligated to the purchase of nor limited to the quantities listed. These supplies will only be ordered as needed. The purchase contract will be awarded on the date as approved by Jackson County Commissioners' Court. The County reserves the right to reject any or all bids and to accept the one deemed most advantageous to the County.

Commissioners have the right to reject, at any time, any material that is undesirable for either road or stockpile location. Jackson County legally accepts delivery of road materials after it is unloaded and approved by Commissioners.

Loaded weight of truck, trailer and material cannot exceed legal state and county weight limits on road and bridges that approach designated job sites. Bidder shall check with Precinct Commissioner for such limits.

Each load shall be weighed on a certified scale. Truck and trailer shall be weighed empty at least once on each job run, or when a change is made due to changing truck, trailer or other. Cost of weighing shall be paid by hauler. Driver shall get a material company ticket from pit or location when loading. A copy of the scale weight ticket, material company ticket and company delivery ticket shall be given to the county employee at job when load is inspected and dumped.

Jackson County shall have the right to pull sample loaded truck(s) to a certified scale of County's choice for loaded weight, unload truck(s) and take empty weight on same scale to verify weight. County shall pay for the weighing.

Upon initial contact, accepted bidder shall advise at that time if required delivery schedule can be met. Cooperation and coordination between Commissions and bidder is essential to make the contract work. Commissioner has the right to stop hauling at anytime due to weather, road conditions and machinery breakdowns.

Bidder must be able to furnish bid items under terms of these specifications if bidder is awarded bid.

Material description per bid specifications must appear on all invoices in order to be considered for payment.

Material bids must be broken down into price per ton or gallon and delivery price. The sum total of these will be used to determine the lowest and best bid.

A fuel adjustment will be applied to the delivery price only as fluctuations in diesel prices occur as listed on the Energy Information Administration website, the Official Energy Statistics from the United States Government at <http://tonto.eia.doe.gov/oog/info/wohdp/diesel.asp> for Weekly Retail On-Highway Diesel Prices using the Gulf Coast Region. The baseline price will be the price on this site on **January 9, 2012** of **\$3.750** (see attached) and thereafter the index will be adjusted and documented on the 1st, or the first business day thereafter of each month after bids are accepted.

COUNTY OF JACKSON, TEXAS
BID SPECIFICATIONS FOR ROAD MATERIALS

The fuel adjustment will be calculated by subtracting the baseline price from the posted price and a 4% adjustment on the delivery price for every 20 cents increase or decrease from the baseline price will be applied. If the difference is less than 20 cents, no adjustment will be applied.

DELIVERY TIME

All materials ordered will be delivered to the delivery site designated and within 24 hours from time of order. In the event a contracted vendor is unable to deliver the materials ordered within 24 hours from time of order the County reserves the right to re-order the said material from any other vendor.
