411 N. Wells, Suite 118, Edna, Texas 77957
Office: (361)781-0624 FAX: (361)782-9258

Transport Permit Application

Complete this form to request authorization to transport groundwater outside of the boundary of the Texana Groundwater Conservation District.

Definition:

Transport of Groundwater – means pumping, transferring, or moving groundwater out of the District.

RULE 5.1 – TRANSPORT PERMIT REQUIRED:

Groundwater produced from within the District may not be transported outside the District's boundaries unless the Board has issued the well owner or operator a transport permit.

RULE 5.2 – APPLICABILITY:

A transport permit is not required for:

1. transportation of less than 10 acre-feet per year,
2. transportation of groundwater that is part of a manufactured product manufactured within the District, or
3. if the groundwater is produced from and put to use on property or within a certificate of convenience and necessity (CCN) that straddles the District boundary line as of the date of these rules.

Instructions:

1. Complete the form to the best of your knowledge and belief.
2. Type or print all information.
3. Attach copies of any relevant documentation or information to this application.
Do not attach original documentation to this application.
4. If a portion of the information requested on this form cannot be provided, please indicate this by entering "unknown" in the related blank space.

Texana Groundwater Conservation District

Section 2: Well Registration or Well Drilling Permit Information

Well Identification Information	
Is the well registered with the District?	Yes / No
Well Registration Number:	
<p>If you are requesting groundwater transport authorization for an existing well and the well is not registered with the District, then complete the <i>Well Registration Application for Grandfathered Exempt-Use Wells or the Well Registration Application for Grandfathered Non-Exempt-Use Wells</i> form to obtain a well registration number.</p> <p>If you are requesting groundwater transport authorization for a previously authorized well, then supply the drilling permit number.</p>	
Permit Number:	
<p>If you are requesting groundwater transport authorization for a proposed well for which drilling authorization has not been granted by the District but is required by District rules, then submit a <i>Drilling Permit Application for Non-Exempt-Use Well</i> application for consideration with this application.</p>	

Section 3: Confirmation of Submittal of Required Information

The District rules (Rule 5.3) require that a transport permit application be submitted with specific information including:	
Is a statement of the nature and purpose of the proposed use and the amount of water to be used for each purpose included in the application submittal?	Yes / No
Is a statement describing the availability of water in the proposed receiving area included in the application submittal?	Yes / No
Is a water-conservation plan for the receiving area included in the application submittal?	Yes / No

Texana Groundwater Conservation District

<p>Are copies of any contracts with entities to whom the water is to be delivered as evidence of demand for the groundwater and beneficial used included in the application submittal?</p>	<p style="text-align: center;">Yes / No</p>
<p>Does the information provided regarding availability of water in the proposed receiving area during the period for which the water supply is requested include:</p> <ol style="list-style-type: none"> 1. The amount of surface water available for any purpose; 2. The amount of groundwater available for any purpose and from any other groundwater source; 3. The conservation measures in place or to be implemented in the receiving area; and 4. The projected water demand and proposed water sources for the receiving area as listed in the State and Regional Water Plans; 5. The availability of water in the District, including the projected water demand and proposed water sources for the District as listed in the State and Regional Water Plans; 6. The projected effect of the proposed transfer on the aquifer conditions, depletion, subsidence, existing permit holders or other groundwater users within the District; 7. A specific description of the proposed transportation facilities; 8. A statement giving the time within which the proposed construction is to begin; 9. A statement giving the length of time required for the proposed use of water, and the amount of water to be used; 10. Information on the method or methods of transportation; and 11. Identify any other liquids that could be substituted for the fresh groundwater and possible sources for such liquid including quantity and quality. 	<p style="text-align: center;">Yes / No</p>
<p>Is the location of the well(s) and rate of withdrawal included in the application submittal?</p>	<p style="text-align: center;">Yes / No</p>
<p>Is proof of notification by certified mail to all landowners within the District and all well owners within a five mile radius of any proposed production wells included in the application submittal?</p>	<p style="text-align: center;">Yes / No</p>
