# Well Registration Application for Non-Grandfathered Non-Exempt-Use Well

Wells drilled after February 25, 2011 that did not require a drilling permit (i.e. oil and gas supply wells) which will be subsequently used for non-exempt purposes shall be registered as a non-exempt well. Operation of a well for non-exempt purposes requires registration with the District and either a validation permit or an operating permit.

### **Exempt-Use Well** – means

1. A well used solely for domestic use, livestock use, personal recreational use; or
2. A well that is operated to produce groundwater not in excess of 35,000 gallons per day; or
3. A well otherwise exempted from District regulation by state law.

***A well used for any other purpose is considered a non-exempt-use well.***

The District will not enter private property to complete the registration process of non-exempt wells without property owner consent.

### **Instructions:**

1. Complete the form to the best of your knowledge and belief.
2. Type or print all information.
3. Attach copies of any relevant documentation or information to this application.  
Do not attach original documentation to this application.
4. If a portion of the information requested on this form cannot be provided, please indicate this by entering "unknown" in the related blank space.
